

St. Paul's School

Mughalpur, Po- Chargawan, Gorakhpur

(SESSION 2020- 21)

8TH WEEK ASSIGNMENT OF CLASS – II

Hello students,

Hope you all are safe and healthy. Please take care of yourself and listen to your parents. Please complete the assignment given below.

Day--1 EVS-- Chapter -6. Pure Water

Read the chapter properly and complete the activity given on pg-34 (on a sheet of paper)

Day--2. Composition -- Draw the picture of your favourite toy and write eight lines about it.(in Question answer copy)

Day--3. Arithmetic --Addition of three-digit number without carry over.
Do the questions in Arith C. W copy.

Day--4. M.Sc Chapter -4. My School and I

Read the chapter and try to understand the value and importance of the people who cares for you at the school.

Draw the picture of any two people who help you at the school. (on a sheet of paper)

Day -5 Hindi-

पाठ- २ मीठू और कौरा

प्र०१ मीठू कौन था ?

प्र०२ कौरा कौन था?

प्र ०३ किन्हीं पाँच रसीले फलों के नाम लिखो और चित्र बनाओ ।

Day -6. Reading . Read the chapter from the Tree Top book.

"The Pup in the Well". Learn the meaning of the words given in the box (pg no. 14)

Pure Water

The water that we get from natural sources like ponds, rivers and lakes is not clean and not fit for drinking.

Many human activities make this water dirty. Such water becomes harmful for us and marine life.

Cross (×) the activities which, according to you, are making the river water dirty.

Washerman washing clothes.

Animals bathing in river.

Woman filling water from the river.

Waste from factory entering the river.

Is it safe to drink or use water from such a river?

Yes

No

Thus, some activities which make this water dirty or impure are

1. Waste products from factories is thrown into rivers
2. Bathing animals
3. Washing clothes
4. Throwing plastic bags or bottles and other wastes into rivers

Making water impure by such activities is also called **water pollution**. Discharge from sewage into rivers also pollutes the water of the rivers.

We should always drink clean water. Dirty or polluted water can make us sick and cause diseases like cholera, diarrhea and typhoid.

Water can be made fit for drinking in many ways.

Some people boil the water. Boiling kills all germs present in it. This is the best way of purifying water at home.

Some people purify water using water filters at home. These days water is also being purified using RO system.

Saving Water

Every drop of water is very precious. We must not waste it. We should use it wisely.

Close the tap while brushing your teeth.

Repair or replace the leaking taps

Instead of shower, use a bucket for bathing. →

We can also collect and save rainwater in buckets, drums and tanks. This water can be used for cleaning the house, watering the plants and washing clothes.

We should reuse water from kitchen to water the plants in garden.

The water left over in water bottles can also be used to water plants or given to pets.

LET'S GO OVER

1. The water of ponds, rivers and lakes is not clean and not fit for drinking.
2. Dirty water becomes harmful for us and marine life.
3. Dirty or polluted water can make us sick and cause diseases like cholera, diarrhea and typhoid.
4. Water can be boiled, filtered or purified using RO system to make it fit for drinking.
5. Every drop of water is precious, we must not waste it.

LET'S PRACTISE

A. Tick the correct option

1. An example of a man-made source is
 - a. Tank
 - b. Stream

4

My School And I

Answer these riddles.

I teach you in school and love you so,
I help you learn and I help you grow.

I am your

In school together we learn and we play,
And we grow together, day by day.

I am your

I water all the plants and make
them grow,
I want to tend them, more and more.

I am your

I sweep away the dust for you each day,
To make your school clean for work
and play.

I am your

Be not afraid, by now you should know,
I guard your school from every foe.

I am your

I am your guide, so sincere and true,
I sit in an office and I love you.

I am your

**Write a riddle about anyone else
who cares for you at school.**

.....
.....

Take turns in asking the rest of the class your riddle.

Do you want to thank the people who care for you at school? Find out their names.

Invite them to your next Value Education Class with a card. Use pencil shavings to make the flower. Each of you sign the card.

Dear

Please come to our next Value Education
Class on at

We want to say 'thank you' to you.

From

Practise this song to sing to your guests.

We thank you, we do,
 We too care for you,
 We thank you dear
 And may God bless you.

Welcome your guests. Sing the 'thank you' song for them.
 Do you want to help those who care for you in school?

Choose three things from the list that you want to do.

1. Throw all rubbish into the dustbin.
2. Not leave dusty footprints on desks and chairs.
3. Not pluck flowers and leaves from the garden.
4. Not shout and scream in class.
5. Wish people when you see them for the first time during the day.

Find the sum. One is done for you.

The Pup in the Well

 Let's Start

Colour the circles as per the instructed. 

Red: if the act is the wrong thing to do

Green: if the act is the right thing to do

hurt a
dog

hurt a
friend

tell a lie

help your
mother

obey your
elders

disobey
your
mother

make fun
of your
friend

say kind
words

say bad
words

steal

share your
toys

Now, read a story about a little pup who did not listen to his mother.

A dog and her pups live on a farm. On the farm, there is a well. Soon the pups are able to walk. Mother Dog says to her pups, 'Do not go near the well or play around it.'

'Yes, mother,' say her pups.

And the pups play all day long on the farm. One of the pups is naughty.

'Why should we not go near the well?' he wonders.

'Let me go and check.'

So, the little pup slowly climbs up the wall of the well. He peers into the well.

He sees his reflection in the well. He thinks there is another pup in the well. He barks at it. The pup in the well barks back at him. The little pup is angry.

'I will teach you a lesson.'

So saying, he jumps into the well. But there is no dog in the well. He barks and barks. Hearing his cries, the farmer comes. He rescues the pup. The pup is sorry and says, 'I should always obey my mother.'

wonders: thinks peers: looks carefully reflection: an image that you see when you look into a mirror or a shiny surface teach a lesson: do something to make someone understand his/her mistake rescues: helps someone from a dangerous place
